

THERMOGARD

PAPER SHIELD

100% Paper

Biodegradable & Compostable

Made from Recycled Materials

Strong Thermal Performance

High Quality Material

100% Curbside Recyclable

PaperShield combines sustainability and performance like never seen before.

A 100% paper thermal insulation with an easy disposal, PaperShield gives you peace of mind, backed by performance. The thin nature of paper tissue allows for more payload space and a lighter package, meaning sustainability is only one of many benefits.

With the ability to add additional liners in a A-B configuration or layering two liners, PaperShield easily accommodates to changing transit requirements. PaperShield is a versatile and high performing insulation for companies looking to go sustainable.
