

Silver Shield

Saving you space + money.

Bubble & Ultra Thin Variations

High Performing Insulation

Recyclable

SilverShield is a highly efficient insulation product that offers exceptional thermal protection in a slim and lightweight design. SilverShield is available in two options - Bubble and Ultra Thin - allowing you to choose the perfect layer of defence for your specific needs - whether your goods need extra protection or increased payload space.

Designed with new soft plastics recycling laws in mind, SilverShield is Thermogard's answer, whilst remaining high performing and durable enough to be reused. SilverShield is the perfect choice for those looking to adhere to recycling laws without sacrificing performance in your cool chain.
